

Aluminum Intake/Exhaust Shutter

Aluminum Shutters are designed for air intake or can be used with exhaust fans (both inside and outside). All shutters come complete with tie bar to eliminate shutter flapping and locking open. The heavy aluminum extrusion frame and center bar (36"– 60") have welded corners for extra strength. Our shutter series is by far the best value shutter on the market today.

Features

- High efficiency shutter with tie bar to eliminate shutter flapping
- Powered Aluminum Intake Shutters or free-air exhaust
- Nylons bearings; solid shafts; drawn cup-type sleeves on all movable linkage
- Frame of heavy aluminum extrusion with 1/2" channel lock water stop.
- Corners are precision milled and welded for durability
- Interlocking blades for maximum weather seal
- Constructed with rigid "T" section center member
- Optional motorized shutter kit available to turn any shutter into a power shutter

Aluminum Intake/Exhaust Shutter

Part#	Size	Panel	Rough Opening
104182	12" x 12"	Single	12.5" x 12.5"
104183	18" x 18"	Single	18.5" x 18.5"
104184	24" x 24"	Single	24.5" x 24.5"
104185	30" x 30"	Single	30.5" x 30.5"
104186	36" x 36"	Double	36.5" x 36.5"
104187	48" x 48"	Double	48.5" x 48.5"
