YOU MUST READ THIS DOCUMENT BEFORE YOU BEGIN TO ASSEMBLE THE DISPLAY BENCH.

Thank you for purchasing this Display Bench. When properly assembled and maintained, this product will provide years of reliable service. These instructions include helpful hints and important information needed to safely assemble and properly maintain the bench. Please read these instructions before you begin.

If you have any questions during the assembly, contact Customer Service for assistance.

SAFETY PRECAUTIONS

- Periodically check nuts and bolts to verify they are tight and secure.
- Do not use the Display Bench if any part is broken or damaged.
- Do not stand on Display Bench shelves. This Display Bench is not a ladder.
- Always lock the brakes on all four (4) wheels when the Display Bench is not being moved.
- Do not use on inclines; Display Bench may tip or roll away.
- Do not hang more than six (6), 10" hanging baskets of flowers on the purlin.
- Do not load shelves with more than 200 lbs. each.

REQUIRED TOOLS

The following list identifies the main tools needed to assemble the bench.

- Flat Head Screwdriver
- 10mm Wrench

UNPACK AND IDENTIFY PARTS

The following steps will ensure that you have all the necessary parts before you begin to assemble the bench.

1. Unpack the contents of the shipment and place where you can easily inventory the parts.
2. If anything is missing or you have questions, consult the Pictorial Parts List, or contact Customer Service.

NOTE: At this time, you do not need to open the plastic bag containing smaller parts such as fasteners or washers.
The following graphics and photos will help you identify the different parts.

- **Wheels (4)**
- **Round Head Bolts (20)**
- **Narrow Shelves (3)**
- **Wide Shelf (1)**
- **Upper End Frames (2)**
- **Lower End Frames (2)**
- **Purlin Supports (2)**
- **Purlin (1)**

ASSEMBLY

1. Stand one (1) lower frame upright. Slide legs of one (1) upper frame over mounting tubes on lower frame.

2. Insert one (1) round head screw through each hole in the legs of the frame. Position the screw heads to the outside of the frame. Tighten screws securely.

3. Repeat steps to assemble second end frame.

4. Lay one end frame on its side. Push the brake lock lever down to lock the brake on one (1) wheel. Turn the wheel assembly to thread the wheel stud into the insert in the bottom of the frame leg. Turn the wheel assembly until it is tight against the bottom of the frame leg. Repeat this step for the remaining three (3) wheels.
5. Stand both end frames up as shown.

**NOTE:** A helper is recommended for this step.

Set one (1) narrow shelf on both frames in the lower rear position.

6. Insert four (4) round head screws, with their heads to the outside of the frame, through the frame and shelf. Tighten screws finger tight at this time.

7. Set one (1) narrow shelf on both frames in the upper position. Insert four (4) round head screws, with their heads to the outside of the frame, through the frame and shelf. Tighten screws finger tight at this time.

8. Set the wide shelf on both frames in the middle position. Insert four (4) round head screws, with their heads to the outside of the frame, through the frame and shelf. Tighten screws finger tight at this time.
DISPLAY UNITS

9. Set the last narrow shelf on both frames in the lower front position. Insert four (4) round head screws, with their heads to the outside of the frame, through the frame and shelf. Tighten all screws securely.

10. Press the lock button on one end of the purlin. Slide the short leg of one (1) purlin support over the end of the purlin.

11. Continue pushing purlin support over the purlin until the lock button pops through the hole in the purlin support. Repeat the step for the other purlin support.

12. With the assistance of a helper, insert the ends of the purlin assembly into tubes on the upper frames. Orient the purlin to the front.

⚠️ CAUTION: Do not stand on Display Bench shelves.
