ClearSpan’s rapidly deployable buildings enable a quick response to any disaster.

ClearSpan creates versatile, cost-effective building solutions that allow you to respond to disasters of any kind at a moment’s notice. Helical Anchor foundations enable quick construction anywhere, and a ClearSpan structure provides an ideal and comfortable space for housing, office space, equipment storage, workspace and much more. ClearSpan is a one-stop shop featuring every building need, and with custom, stock and turnkey options, ClearSpan can quickly get you the building you need.

The ClearSpan Disaster Recovery Advantage:

Available in fabric, metal and hybrid styles.

Build up to 300’ wide and at any length - Transport structures with ease. Low cost per square foot. No internal support posts.

Climate-sensitive covers - 20 degrees cooler in summer, 20 degrees warmer in winter.

Energy-efficient designs - Natural lighting drastically reduces utilities costs.

Durable construction and industry-leading warranties - 50 years on steel frames, 25 years on corrugated metal and 20 years on fabric covers.

Maximum ventilation, dry environments - Ideal for storage or workspace. Economically and aesthetically pleasing.

Multiple foundation options - Save time and money with our Helical Anchor System.
Since 1979, ClearSpan has offered cost-effective, versatile and energy-efficient building solutions. We provide in-house design, manufacturing and construction, and pride ourselves on offering superior customer service. Our experienced truss arch specialists are highly trained to help you determine the best structure and setup for your needs. With stock, turnkey and design-build solutions, there is a ClearSpan structure for everybody.

“The guys like the structure, and ClearSpan is customer friendly. It only took the ClearSpan construction crew a week to put it up and get it anchored well. We are considering purchasing another ClearSpan structure for our ladder truck.”
- Gerry Strider, Bailey’s Crossroads Volunteer Fire Dept., Falls Church, Va.

“The ease of construction, the footprint versus the amount of usable space, the headroom to allow stackable shelving, the natural lighting reducing the installation and maintenance costs - what’s not to like?”
- Glenn Garrison, Lauren Engineers & Constructors, Inc., Abilene, Texas

“It was easy to assemble. If I did have a question, the ClearSpan staff was only a phone call away. The building is well engineered and even handled Tropical Storm Irene with no damage, while my neighbor’s roof was blown off his business.”
- Chris Wilk, Wilk Sealing and Firewood, Center Rutland, Vt.

Lifting a 2008 Dodge quad using our 12.5 oz cover material and structural steel frame.
