ClearSpan’s versatile foundation options are designed to fit your application and budget.

ClearSpan provides buildings across all industries, and with this comes some specific foundation requirements and requests. No matter where you need to build or how you need to use your building, ClearSpan can design and create a new foundation or construct a new ClearSpan building on an existing foundation.

The ClearSpan Foundation Advantage:

- Build on blocks, poured concrete, concrete pads, piers, posts and more.
- Innovative Helical Anchoring System - Save money, reduce construction time.
- Container foundations - provide additional storage and increased height.

High quality and dependable.
No need for outside contractors or third parties.
Foundation solutions for jobsites, farms, warehouses and any other facility.

Since 1979, ClearSpan has offered cost-effective, versatile and energy-efficient building solutions. We provide in-house design, manufacturing and construction, and pride ourselves on offering superior customer service. Our experienced truss arch specialists are highly trained to help you determine the best structure and setup for your needs. With stock, turnkey and design-build solutions, there is a ClearSpan structure for everybody.

“We are extremely happy with the three buildings, and we’re talking about purchasing a couple more to use for our quarry operations.”
- Robbie Freels, APAC-Missouri, Inc., Marshall, Columbia and Linn Creek, Mo.

“ClearSpan was easy to work with, had lots of options and provided us with a quality product and a warranty to back it up. They offered us great customer service!”
- Susan Barsness, Barsness Dairy, Starbuck, Minn.

“I was amazed how knowledgeable the salesperson was and how willing he was to help develop a custom solution. This building really helped us provide an extra level of service to the residents of Wyandot County.”
- Mike Kohl, Wyandot County, Upper Sandusky, Ohio
