Our HydroCycle Aquaponics Systems allow you to take advantage of the natural biological functions of both fish and plants, maximizing business potential by providing the opportunity to tap into two markets. As the fish fertilize the system’s plants, the plants purify the water, leading to low-maintenance systems that produce natural, pesticide-free products. Each system contains all of the tanks, plumbing, filtration, hardware and aeration supplies needed to start your aquaponics venture.

The HydroCycle Commercial Aquaponics System Advantage:

- **A cost-effective way to produce two marketable products.**
  - Systems range in size - From one 8’ x 8’ raft bed to four 8’ x 96’ raft beds.
  - Aquaponics systems come complete - All the hardware, tanks and water clarification tools included.
  - 168 lettuce sites to 8,064 lettuce sites

- **Produce up to 15,000 lbs. of tilapia yearly.**
  - For larger, custom systems, call the aquaponics team at ext. 1261.
  - All systems come with filters and clarification accessories - Keep fish and crops healthy.
Since 1979, Growers Supply has provided the **highest-quality products at the most economical prices** to the growing and agriculture industry.
